

Jumpin tae conclusions.

A vast number of life's wrong turnings can be put down to the human tendency to jump to conclusions.

**It wisnae that I missed ma cue,
Or that events obscured ma view;
But I wis kin o stuck on you,
An jumpin tae conclusions.**

**It's no the lack o what it takes,
Or that I didnae get the breaks;
It's juist I made some daft mistakes
Wi jumpin tae conclusions.**

**But that's the world that we're in!
It disnae ayeways smoothly spin;
And I wisnae the only yin
Wis jumpin tae conclusions.**

**Sae fair enough, we'll let it lie.
I doot hooever hard we try,
When aye means no, and no means aye,
We're jumpin tae conclusions.**

(Words and tune original.)
